

How to send KDA from Zelcore wallet to Crankk dashboard wallet

Exchanges offering Kadena:

Binance **Chain 2**

KuCoin **Chain 1**

Gateio **Chain 1**

OKX **Chain 1**

Bybit **Chain 2**

Every exchange is using a different Kadena chain. But, it doesn't really matter, as we can convert tokens through Chains later on.

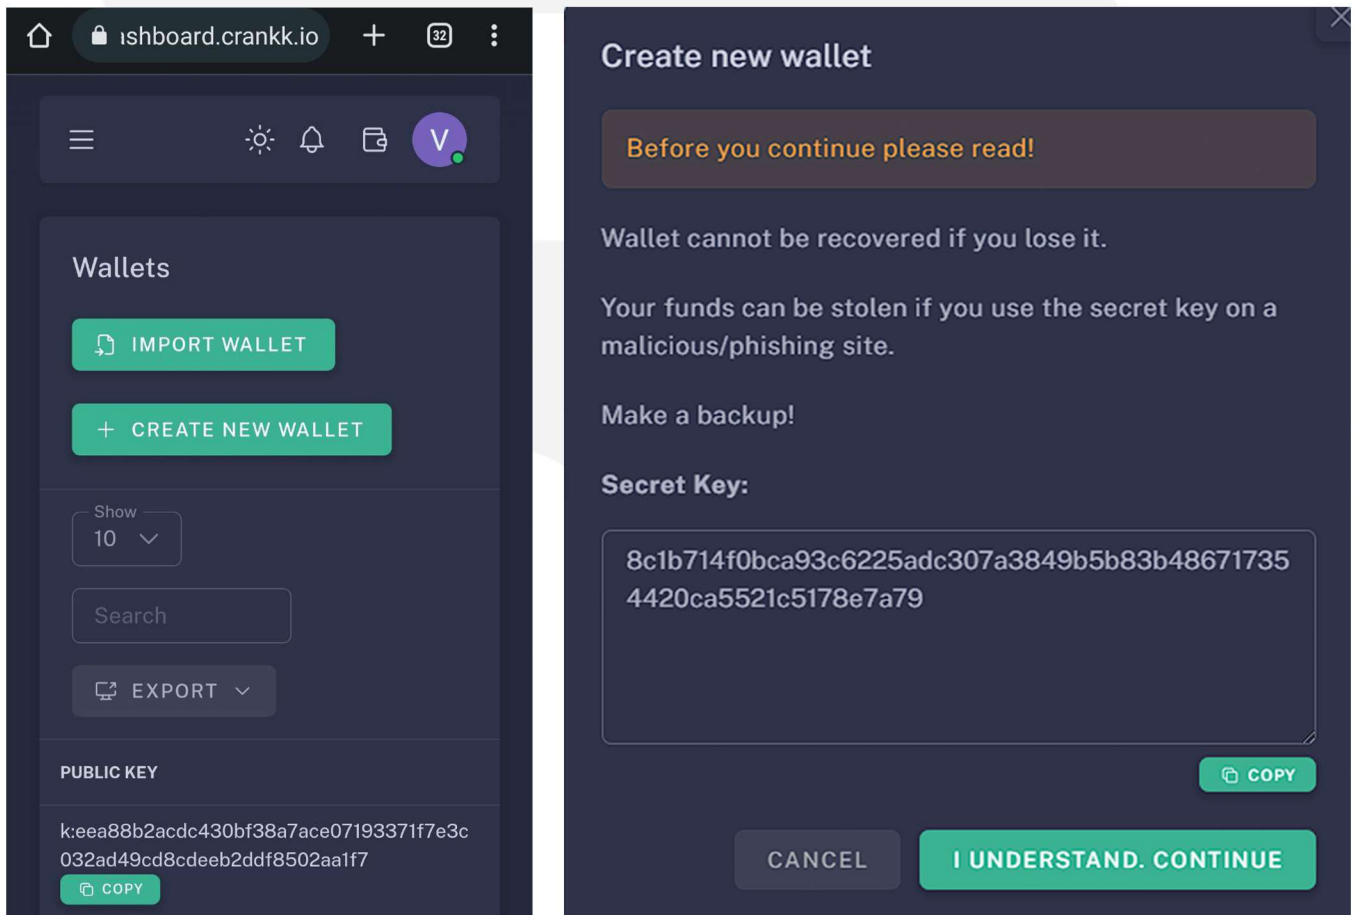

The one thing to remember is that Crankk operates on **Chain 0**.

Its recommended to send \approx \$154 to cover the fees and coin volatility.

Step 1 First, create a Dashboard wallet

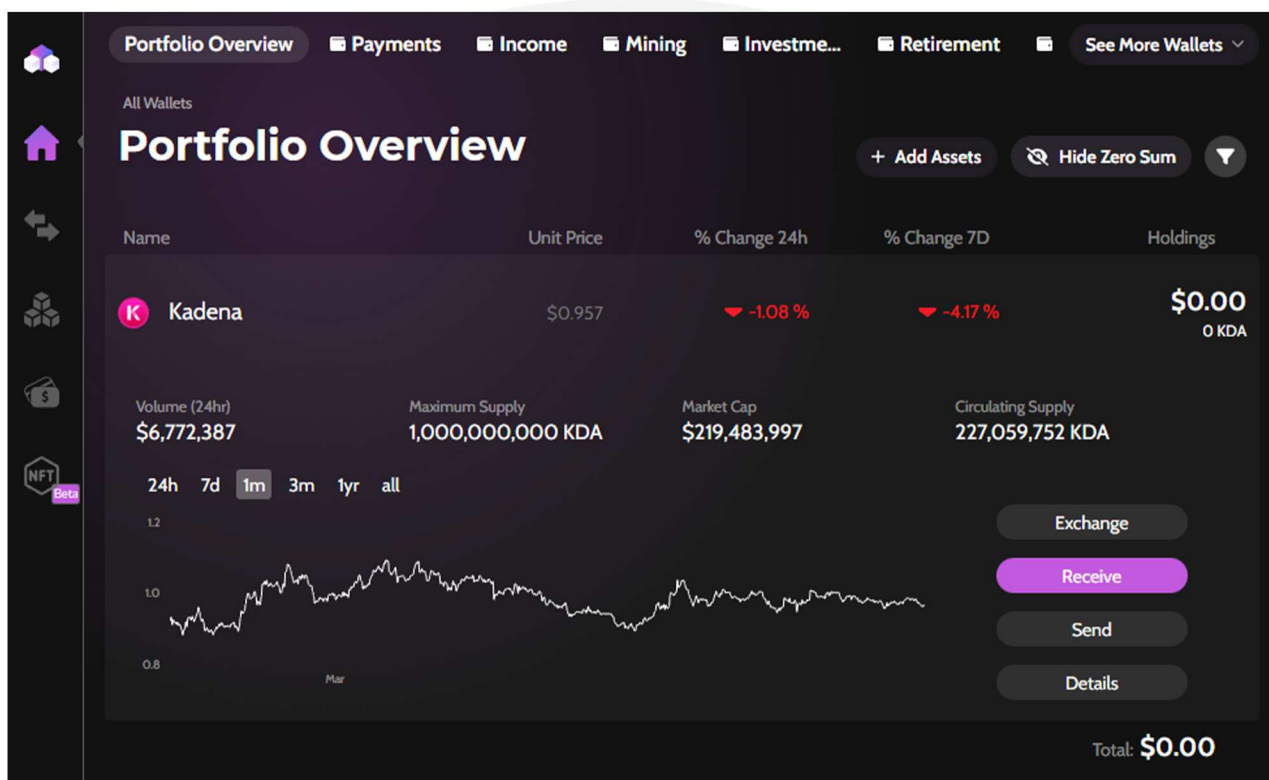

Login to **Crankk dashboard** with your Google account. Go to wallets section in top right corner and set a password. Then **Manage Wallets > Create New Wallet**.

Save both keys securely to avoid losing your assets!

Step 2 Download and install **Zelcore portable** on your PC
Go to <https://zelcore.io> > **Try it Now** > **Windows portable version** (No KYC required)

Open **Zelcore** and go to **Portfolio** > click on **Show zero sum**
This option will display all the crypto assets.

Choose **Kadena** > **Receive**
Pick Chain 2 > **Continue**

Press to copy the k: wallet address.

Step 3 Then head over to Binance to send some KDA Go to **Withdraws > KDA**

The screenshot shows the Binance withdrawal interface for KDA. It includes a 'Select coin' dropdown set to 'KDA Kadena', a 'Send to' section with a 'Binance user' address, a 'Withdraw amount' section with a value of '2' and a 'Daily remaining limit' of '7,999,998.06 BUSD/8,000,000.00 BUSD', and a 'Network Fee' of '0.1 KDA'. The 'Receive amount' is '1.900000 KDA'. A yellow 'Withdraw' button is visible at the bottom right.

| | | |
|-----------------|-----------------------|---------------------------------------------------------------|
| Select coin | Coin | KDA Kadena |
| Send to | Address | Binance user |
| | Address | k:5ad6a7c6cd4f3372e7d7ab8a86525e7c467b12777c5cf8fbf33bda13094 |
| | Network | KDA2 Kadena |
| Withdraw amount | Amount | 2 |
| | Daily remaining limit | 7,999,998.06 BUSD/8,000,000.00 BUSD |
| | Spot Wallet | 41.31014345 KDA |
| | Funding Wallet | 0 KDA |
| Network Fee | | 0.1 KDA |
| Receive amount | | 1.900000 KDA |

Paste your Zelcore address (**k:publicKey**) that you just copied. Choose amount to send, hit **Withdrawal** and authorize the transaction.

Step 4 Send KDA from Zelcore to Dashboard wallet (chain0)

Once KDA is available in **Zelcore**, select KDA and press **Send**.

Select **Payments** and pick the k: wallet address with KDA.

If you sent KDA from Binance/Bybit > Select **Chain 2**.

For KuCoin, Gate.io and OTX choose **Chain 1**.

Send

Please select the wallet you'd like to use to send funds:

Payments

Select account:

k:5ad6a7c6cd4f3372e7d7ab8a8652 ✓

Chain ID:

Chain ID 2

Continue

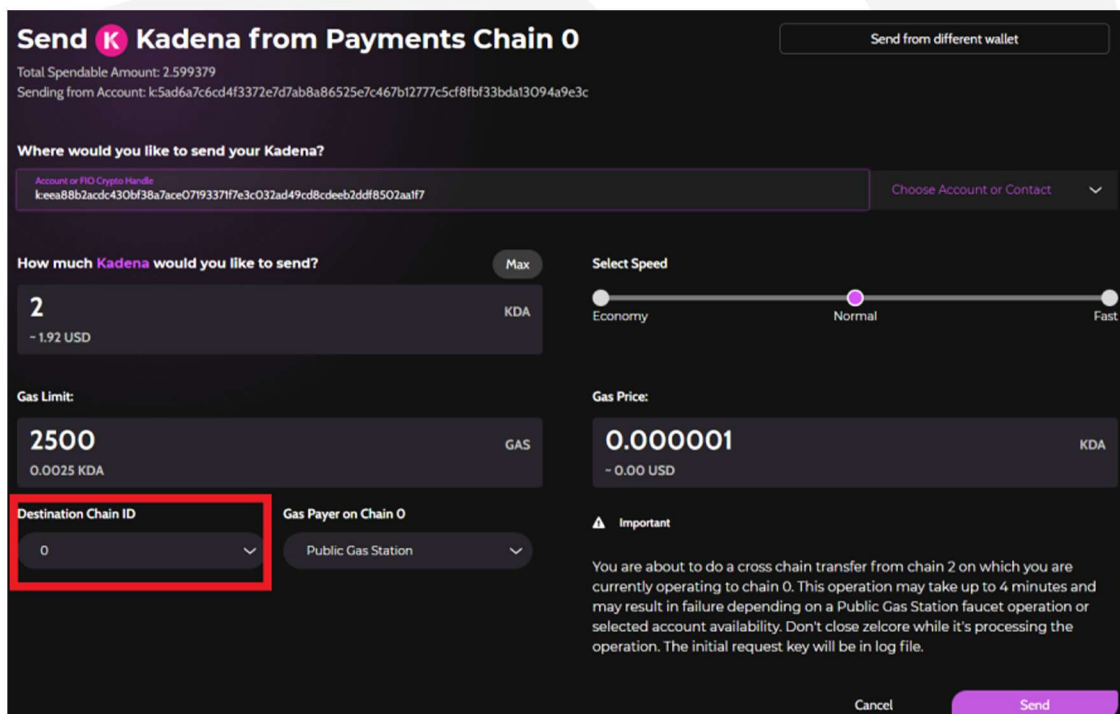

Cancel

Copy your wallet address from the Crankk dashboard and paste it into **Zelcore**.

| PUBLIC KEY | ALIAS | GATEWAY |
|--------------------------------------------------------------------|----------|---------|
| k:eea88b2acdc430bf38a7ace07193371f7e3c032ad49cd8cdeeb2ddf8502aa1f7 | Sensecap | N/A |

Please make sure you change the **Destination Chain ID to 0**. Select the amount of KDA you wish to transfer and hit **Send**. Don't send all KDA, as you need some to pay the **GAS fees**. Keep Zelcore wallet open until you see **Transaction sent** message.

How much Kadena would you like to send? Max
2 KDA
~ 1.92 USD

Select Speed
Economy Normal Fast

Gas Limit: **2500** GAS
0.0025 KDA

Gas Price: **0.000001** KDA
~ 0.00 USD

Destination Chain ID 0 Gas Payer on Chain 0 Public Gas Station

Important
You are about to do a cross chain transfer from chain 2 on which you are currently operating to chain 0. This operation may take up to 4 minutes and may result in failure depending on a Public Gas Station faucet operation or selected account availability. Don't close zelcore while it's processing the operation. The initial request key will be in log file.

Cancel Send

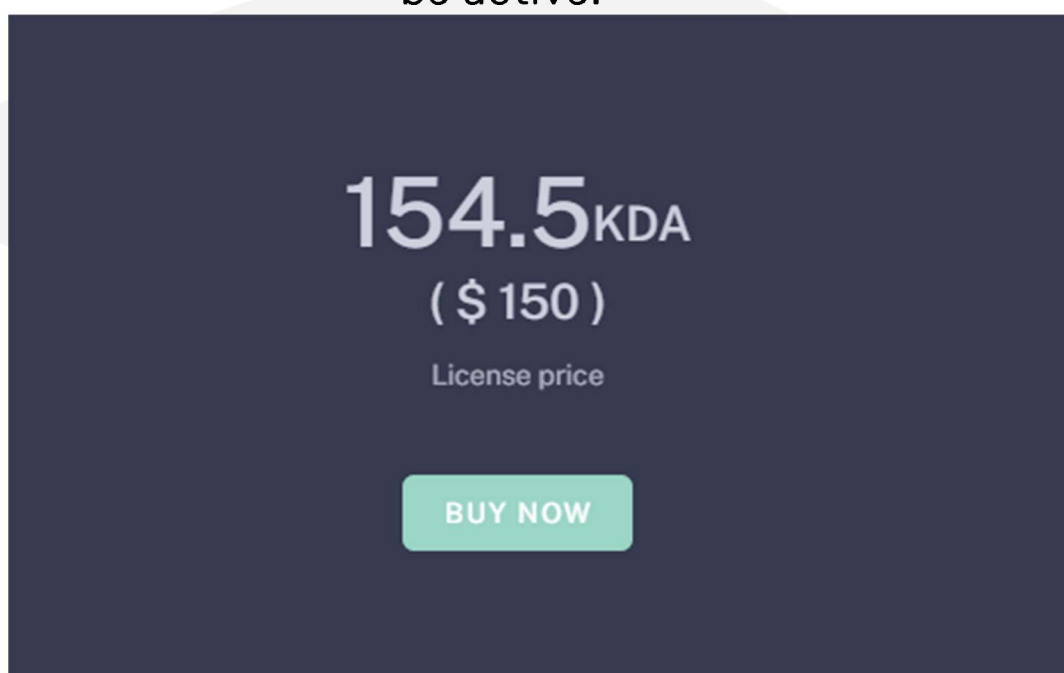

The transaction takes up to 15 mins.
Don't close the app before the transfer is complete.

Step 5 Buy the software license

Once KDA arrives in your Dashboard wallet, go to:

Dashboard > Enter > Unlock and select your wallet > Buy Now

You need to have min \$150 worth of KDA to buy the license. If you don't have enough KDA, the **Buy Now** button will not be active.

If you have an affiliate code and wish to support them, please insert it in the designated field.

Clicking the **Buy** button may take up to 15 minutes to reflect the changes, so please be patient.

If you need any help, you can always ask the Crankk community or contact Technical support team in **Discord**.
Welcome aboard!
